

Application Note

Use of 101N0230 Electronic Unit

In applications providing pressure equalization before compressor start and operating in ambient conditions below 32°C (90°F), electronic unit 101N0210 is appropriate for both the BD35F and BD50F compressors. Electronic unit 101N0230 is offered for use with Danfoss BD50F compressors to provide

additional starting torque for the BD50F compressor. Electronic unit 101N0230 is not suitable for use with the BD35F compressor. The BD50F has a stronger motor than the BD35F and can tolerate the higher start current furnished by the 101N0230 electronic unit.

Starting current for 101N0210 (BD35F & BD50F)

Starting current for 101N0230 (BD50F)
