WIDE PRODUCT RANGE TO FIT YOUR APPLICATION

Danfoss components will optimise even the most complex application. We design, produce and market a comprehensive range of automated solutions for the HVAC/R industry.

RELY ON OUR AVAILABILITY

Thanks to our global platform we can guarantee both availability and reliability which helps you reducing inventory and freight costs.

GET MORE AT ANY TIME

With Danfoss Learning you can get the most of our products and the maximum performance of yours. Our online education platform is packed with courses developed by experts. It is free of charge and accessible 24/7.

Our technical documentation includes all the technical specifications of our components in more than 30 languages online.

With our selection software you will always make the right choice when selecting Danfoss components. Our online selection software is fast and accurate and empowers you to build and select the correct component based on your specific system requirements.

WE ARE WHEREVER YOU NEED US

With our production and distribution facilities we can offer local support and application knowledge wherever you are before, during and after sales. We are a truly global organisation which still remains local to our customers.

CLOSE TO YOU TODAY AND TOMORROW

Danfoss has 78 years of recognised innovation experience and we are constantly developing new products and improving technologies that will ensure that you have the highest quality and highest performing applications.

TESTED THROUGH AND THROUGH

We can guarantee continuous quality thanks to our application and product laboratories and our local inspection centres that ensure that we are delivering the highest quality components for your systems.

OUR APPROVALS MAKE YOURS EASIER

By marking all of our components with the relevant approvals and certifications, you are guaranteed that your systems meet the requirements wherever they are sold.
