

Burn-out filter drier

Refrigeration and Air Conditioning

¹⁾ Rated capacity is stated at: evaporating temperature $t_e = 4\text{ }^{\circ}\text{C}$ (39.2 $^{\circ}\text{F}$) pressure drop $\Delta p = 0.21\text{ bar}$ (3.04 psig).	²⁾ Adsorption capacity of oleic acid at 0.05 TAN (Total Acid Number).
---	---

The Danfoss ELIMINATOR® Series of filter driers are the most effective all-purpose driers available today.

DAS - 70% activated alumina with 30% molecular sieve. Designed to adsorb harmful acids as well as moisture after compressor motor damage.

By adsorbing these acids, these DAS burn-out filter drier protects the new compressor against premature failure.
