Danfoss in brief

Danfoss engineers technologies that enable the world of tomorrow to do more with less. We meet the growing need for infrastructure, food supply, energy efficiency and climate-friendly solutions. Our products and services are used in areas such as refrigeration, air conditioning, heating, motor control, and mobile machinery. We also operate in the field of renewable energy, as well as district energy infrastructure for cities and urban communities.

The Group is divided into four business segments: Danfoss Power Solutions, Danfoss Cooling, Danfoss Drives, and Danfoss Heating. Danfoss Power Solutions is a leading player in hydraulic systems and components for powering off-highway mobile machinery. Danfoss Cooling is a market leader in the air-conditioning and refrigeration industry. Danfoss Drives' key expertise lies in low-voltage AC drives, power modules, and stacks for a number of industries. Danfoss Heating enjoys leading positions within residential heating, commercial heating, and district energy.

Danfoss is a privately-owned company, which has grown and improved its skills and expertise in energy-efficient solutions over more than 80 years. Danfoss was founded by Mads Clausen, and today the company is controlled by the Bitten and Mads Clausen Foundation.

Results in line with expectations

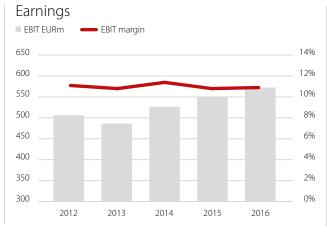

In 2016, the Danfoss Group continued the good performance and delivered satisfactory financial results in line with expectations.

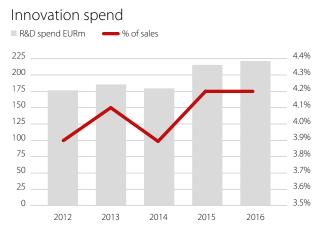

The year was characterized by continuing low global growth conditions with a mixed business environment across markets and sectors. Sales grew 3% to EUR 5.3bn, corresponding to 6% growth in local currency. EBIT improved 4% to EUR 0.6bn, leading to an EBIT margin of 10.9% and net profit of EUR 0.4bn, up 13% on last year. The results were driven by a strong performance in Danfoss Cooling and good growth traction in Danfoss Power Solutions.

The strong free cash flow before M&A was kept high at EUR 0.5bn, and the free cash flow ended at EUR 0.2bn, due to the acquisitions completed in the third quarter of 2016.
