

14 0.5 15 $\sqrt{0.8/Ra\ 3.2}$

DETAIL A
SCALE 5:1

- 8 Dimensions not specified: Acc. to 3D file
- 9 Tolerance not specified according to "ISO 3302-1 (M2)"
- 10 Volumen: 11888 mm
- 11 Muste be according to UL50 demand
- 12 Colour of gasket: Ral 9005
- 13 Approved materials: Bayer, LP3311PBK4

16 To prevent that the packaging sticks to the opposite unit, the packagings are rolled in talcum powder approx. 15 to 20 min. to absorb surplus of oil products, which are the reason for gripping. After the rolling the packagings are blown and packed together in bundles with 25 units in boxes. This prevents the units to be tangled.

The rest of the talcum powder must be so small that it can be handled without any gloves (no considerable smudging of talcum powder on the hands).
