

TurbocorCloud® Gateway

100471

Installation and servicing of Danfoss Turbocor® compressors by qualified and product-trained personnel only. Follow these instructions and sound refrigeration/electrical/servicing practices relating to installation, commissioning, maintenance, and service.

Consult the Danfoss LLC TurbocorCloud Installation and Commissioning Manual on www.turbocoroem.com for detailed instructions.

Never power a Compressor or Drive without all covers and doors in place and secured.

Always wear appropriately rated safety equipment when working around equipment and/or components energized with high voltage.

Failure to use qualified personnel to install, start up, and maintain the Compressors and Drives can result in death or serious injury.

1 - Introduction

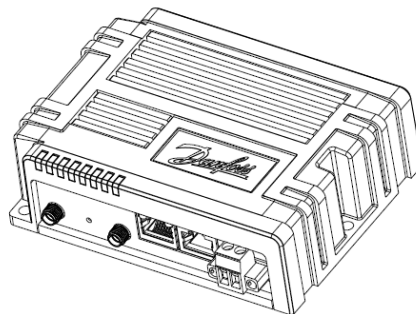

Figure 1 – Gateway

This kit contains the Gateway and the DIN Rail Clip. An antenna and SIM card will also be required.

Refer to our TurboCloud Gateway Installation and Operation Manual when installing the Gateway.

We have made the **TurbocorCloud® Installation and Commissioning Manual** available to anyone. To access the manual, you may scan the applicable QR code below or you may go to our website at www.turbocoroem.com. At the bottom of the page there is a Section named "Categories" that includes various menus including one for Manuals.

Refer to the applicable QR code below to download the TurbocorCloud® Installation and Commissioning Manual.
