

Fact Sheet

VLT® HVAC Basic Drive FC 101

Convenient and compact control

Efficient control of induction and permanent magnet motors in all HVAC applications

Optimized for basic operation of fans, pumps and compressors, the VLT® HVAC Basic Drive has built-in functions that reduce initial costs and increase productivity.

This drive is the most compact unit in its class, and can deliver up to 25% energy savings. Integrated DC coils reduce harmonics without the extra cost and space required for external devices.
